

MC 360 Electric Burden Carrier

The MC-360 is our most versatile electric industrial electric burden carrier. This durable, low-maintenance electric work truck easily hauls heavy loads over long distances, and can be equipped with decks of up to 244cm to further reduce the number of trips per shift.

Its short turning radius and well-balanced design with rear batteries ensure superior manoeuvrability, traction and braking for greater safety. Standard features include bolt-on front bumper and all-steel unibody construction.

Vehicle Specification

Motor	10 hp
Voltage	36v
Transmission	Direct Drive
Batteries	6x6v
Steering	Automotive Style
Seating	2 x Bucket Seats
Height	117 cm
